

**We create cultural  
experiences for all  
generations**

# OUR MISSION

Any exhibition is just the tip of the iceberg of a bigger story which the visitor is carried into. We create productions that tell that story.

# An exciting, immersive, multimedia space

We create emotional spaces to engage with the visitor, spaces that communicate through innovative ideas and exciting solutions.

With the help of immersive cutting-edge technologies, the attention of the visitor is captured and channeled into the exhibition, its world and its values.

## Simply Haring

Straight from the 80s in New York, Keith Haring is one of the most influential Pop Artist of the century. His communication is simple and direct, turning into sharp when speaking about the same social issues that are now still contemporary.

In this simplicity a neverending celebration of life arises.

## Abyss

The marine ecosystem is the largest environment on earth. Sunlight only penetrates the ocean up to 200 meters, and this is where most of the marine organisms we know are concentrated. Proceeding downwards, the temperature of the water tends to decrease: at 2000 meters the temperature is 3°C and at 3000 meters it is only 2°C, on the seabed it can touch 0°C.

# Bugs Society

[LINK](#)

One of the main purposes of biology is environmental evaluation and ethics, respect for nature and all living beings that inhabit it, water, trees, plants and animals are not only studied in all levels of education, but they have become the life expectancy for the man of the future.

# Sharks

Sharks are considered one of the most dangerous species in the world, Spielberg's masterpiece "Shark" contributed to this common belief. Though not all shark species are really dangerous but very interesting to discover.

# Felines

Object of veneration since ancient times, felines are the union of strength and elegance but now also extreme fragility: in the last twenty years their number has decreased considerable. The exhibition aims to spread the knowledge of these beautiful creatures and the danger they are facing.

## Michelangelo

Michelangelo Buonarroti Simoni (1475-1564) is one of the few artists who need no introduction. He was considered the greatest living artist of his day and his paintings and sculptures rank among the most famous works in Western history. This exhibition brings you the most complete collection of life sized replicas of his statues and a number of drawings.

# Mythos

The myth arises from the need to explain reality, to overcome and resolve the contradictions of nature, it is the imaginative way of explaining the origin of things. Myths are much more than a series of stories handed down by ancient peoples, they represent a fundamental part of every culture: they are the color of history.

# Dante's inferno

Dante Alighieri is considered the father of the Italian language, but his fame is mainly due to the paternity of the *Divina Commedia*, universally considered one of the greatest masterpieces of world literature. This exhibition is a journey in the mysteries, the horrors, the pathos and the beauty of the *Comedia's Inferno*, through sculptures and Gustave Doré's engravings.

The logo for ELV Culture of Innovation. It consists of the letters "ELV" in a white, bold, sans-serif font. Below "ELV", the words "Culture of Innovation" are written in a smaller, white sans-serif font. The entire logo is set against a solid black rectangular background.
